

5 March 2020

Dear parent/guardian,

I am writing to update you on the novel coronavirus COVID-19.

As you would be aware, last month the Australian Government announced new measures that specifically address travel restrictions from mainland China.

Over the weekend, the Government announced updated restrictions which now include travel from Iran. This is consistent with the travel restrictions in place for Australians returning from mainland China.

Students or staff cannot attend school or childcare if they have:

- left, or transited through mainland China in the last 14 days (they must isolate themselves for 14 days from leaving mainland China)
- left, or transited through Iran on or after 1 March (they must isolate themselves until 14 days after leaving Iran)
- been in close contact with a confirmed case of coronavirus in the last 14 days (they must isolate themselves for 14 days after the date of last contact with the confirmed case).

These are important preventative measures that have been put in place in the interests of public health.

I do not expect that these travel restrictions will significantly impact any of our day-to-day campus operations and I want to reassure you that we will continue to work to ensure any disruption is minimised.

If your young person is unwell or show symptoms of illness, please ensure they see a doctor immediately.

As always, the health and wellbeing of our young people, and our staff, remains our number one priority.

We continue to take advice from Queensland Health and the Australian Government in relation to this matter. The latest information regarding [novel coronavirus](#) is available on the Queensland Health website.

Again, thank you for your understanding and attention to this important matter.

Kind regards

Your Campus Principal
